

Serial No.: 10/706,521

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re application of: CALLAN, Eoin J.P.)
) Conf. No.: 7694
Serial No.: 10/706,521)
) Group Art Unit: 3743
Filed: November 12, 2003)
) Examiner: PATEL, Nihir
For: RESPIRATORY MASK)
)

DECLARATION OF EOIN J.P. CALLAN UNDER 37 C.F.R. § 1.131

I, Eoin J.P. Callan, declare as follows:

1. I am the inventor of the invention claimed in my above-identified patent application.
2. I conceived the invention claimed in my above-identified patent application prior to October 17, 2002. As evidence of my prior conception, attached hereto is an email dated November 12, 2001, attaching sketches and including written description of the respiratory mask of the presently claimed invention.
3. Prior to October 17, 2002, in or around the summer of 2002, I reduced the previously conceived invention to practice by personally producing a physical prototype of a respiratory mask according to the presently claimed invention.
4. From a date prior to October 17, 2002 and continuing until the filing date of my above-identified patent application, I diligently pursued various design improvements to the respiratory mask within the scope of the presently claimed invention, pursued funding for the patent application process, and worked with my patent attorney and draftsman in preparing my above-identified patent application for filing.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further

Serial No.: 10/706,521

that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Subject: FaceSpace (tm) Rough Sketches

> Dear Brad,

>

> You said the pictures didn't have to be much and so I tried to live up to
> those expectations. Please find attached 2 jpeg files that outline the
> FaceSpace mask idea in graphic format, along with some quick ideas for
> designs that are immediately available since they're probably public
domain.

> FaceSpace in a nutshell is the idea of printing text or graphics on
surgical

> masks that may then still be used for protection against airborne diseases
> and pathogens. The designs can be printed on one side of the pleated
> surgical masks or on both, however different sterilisation procedures will
> need to be used if both sides get printed.
